HARDWARE WORK EXPERIENCE

Machine Shop Assistant | Olin College of Engineering **2016 – 2018**

- Developed training procedure for the shop's newly acquired plasma cutter
- Trained students at Olin College on the manual Lathe
- Created written tutorials for manual mill and manual lathe training
- Machined various items for shop improvement (ie. mill vice stops)

Mechanical Design Intern | Creative Machines **2015**

- Designed and prototyped children museum exhibits
- Detailed Solidworks models for public art projects
- Created drawing packages for assembly of public art projects

Research Assistant for Vibration Energy Harvesting Research | Olin College **2014**

- Co-authored "An Extended-Range Vibration Energy Harvester Based on Internal Resonance" IEEE
- Presented research results at SPIE Defense+Sensing (Poster Presentation, Baltimore 2015)
- Improved data collection by implementing strain gage on L-beams for displacement measurements
- Collected a full range of data (displacement and voltage) for a non-linear vibration energy harvester

DESIGN WORK EXPERIENCE

Senior UX Designer | ecoATM **2022 – Present**

End-to-end product design for ecoatm.com and the ecoATM mobile app. Using AI to build functional coded prototypes of user experiences and interactions.

Lead UX Designer | Creative Machines **2020 - 2022**

Served as sole UX designer and a front-end developer for BitGym, a consumer fitness app, owning end-to-end product design for iOS and tvOS platforms

Interaction Designer | Mitsubishi Electric **2018 - 2020**

Worked in Yokohama Japan, designing consumer-facing digital products and IoT experiences, including air conditioning, elevator, and smart home hub applications

TOOLS & SKILLS

Fabrication: 3D printing, laser cutter, Manual mill, manual lathe, waterjet, MIG & TIG welding

CAD: Solidworks, Onshape, drawing packages & assembly documentation

Electronics: Raspberry Pi, Soldering

Software: HTML, CSS, JavaScript, Python, bash/command line, Git/GitHub, VS Code

AI Tools: Claude Code, ChatGPT, Codex, Whisper

EDUCATION

B.S. General Engineering @ Olin College of Engineering

Courses: Mechanical Design, Fundamentals of Machine Shop Operation, Introduction to Mechanical Prototyping, Mechanics of Solids & Structures, Signals and Systems, & Real World Measurements
