

Jiaying Wei

Maker and product designer transitioning to full-time hardware technician work

jywei02@gmail.com • (315) 403-3370 • Berkeley, CA • [LinkedIn](#) • [Website](#)

HARDWARE WORK EXPERIENCE

Machine Shop Assistant | Olin College of Engineering 2016 - 2018

- Developed training procedure for the shop's newly acquired plasma cutter
- Trained students at Olin College on the manual Lathe
- Created written tutorials for manual mill and manual lathe training
- Machined various items for shop improvement (ie. mill vice stops)

Mechanical Design Intern | Creative Machines 2015

- Designed and prototyped children museum exhibits
- Detailed Solidworks models for public art projects
- Created drawing packages for assembly of public art projects

Research Assistant for Vibration Energy Harvesting Research | Olin College 2014

- Co-authored "An Extended-Range Vibration Energy Harvester Based on Internal Resonance" IEEE
- Presented research results at SPIE Defense+Sensing (Poster Presentation, Baltimore 2015)
- Improved data collection by implementing strain gage on L-beams for displacement measurements
- Collected a full range of data (displacement and voltage) for a non-linear vibration energy harvester

DESIGN WORK EXPERIENCE

Senior UX Designer | ecoATM 2022 - Present

End-to-end product design for ecoatm.com and the ecoATM mobile app, supporting a national network of 7,500+ kiosks that have kept over 50 million devices out of landfills.

Lead UX Designer | Active Theory Inc. 2020 - 2022

Served as sole UX designer and front-end contributor for BitGym, a consumer fitness app, owning end-to-end product design for iOS and tvOS platforms

Interaction Designer | Mitsubishi Electric 2018 - 2020

Designed consumer-facing digital products and IoT experiences for the Japanese market, including air conditioning, elevator, and smart home hub applications

TOOLS & SKILLS

Machines: Manual Mill, Manual Lathe, Soldering, Waterjet, Laser Cutter, MIG & TIG Welding, 3D printing

Software: Solidworks, On Shape

AI Tools: Claude Code, Claude Cowork, ChatGPT, Codex, OpenAI Whisper

EDUCATION

B.S. General Engineering, Concentration in Product Design @ Olin College of Engineering

Courses: Mechanical Design, Fundamentals of Machine Shop Operation, Introduction to Mechanical Prototyping, Mechanics of Solids & Structures, Signals and Systems, & Real World Measurements
